## ANNUAL ANNOUNCEMENT AND CIRCULAR, FOR 1869-70.

THE Introductory Lecture to the Twenty-seventh Annual Course will be given in the Lower Lecture Room of the College, on Wednesday evening, September 29th. The Regular Lectures will commence on the following morning, and continue eighteen weeks. As there will be but one Introductory, students are admonished that their interests demand their attendance at the opening lecture.

The control of the College is vested in the following,

### *Board of Trustees.*

HON. W. B. OGDEN, PRESIDENT.

HON. GRANT GOODRICH, SECRETARY.

HON. MARK SKINNER, TREASURER.

E. S. KIMBERLY, M.D.      GEO. W. SNOW, Esq.

L. C. P. FREER, Esq.      HON. N. B. JUDD.

HON. HUGH T. DICKEY.      J. W. FREER, M.D.

EPHRAIM INGALS, M.D.

HIS EXC. JOHN M. PALMER, *Governor,*

HON. FRANKLIN CORWIN,

JAMES V. Z. BLANEY, *Pres. College,*

} *Ex-Officio.*

*Faculty.*

J. V. Z. BLANEY, A.M., M.D., PRESIDENT,

Prof. of Chemistry and Pharmacy, at College Laboratory.

JOS. W. FREER, M.D.,

Prof. of Physiology and Microscopic Anatomy, College.

J. ADAMS ALLEN, M.D., LL.D.,

Prof. of Principles and Practice of Medicine, 503 Michigan Avenue.

E. INGALS, M.D., TREASURER,

Prof. of Materia Medica and Medical Jurisprudence, 190 Clark Street.

DE LASKIE MILLER, M.D., SECRETARY,

Prof. of Obstetrics and Diseases of Women and Children, 518 Wabash Avenue.

R. L. REA, M.D.,

Prof. of Anatomy, 119 Clark Street.

MOSES GUNN, A.M., M.D.,

Prof. of Principles and Practice of Surgery and Clinical Surgery, College.

EDWIN POWELL, M.D.,

Prof. of Military Surgery and Surgical Anatomy, 45 Clark Street.

JOSEPH P. ROSS, M.D.,

Prof. of Clinical Medicine and Diseases of the Chest, 85 Washington St.

EDWIN L. HOLMES, M.D.,

Prof. of Ophthalmology, 169 Dearborn Street.

CHARLES T. PARKES, M.D.,

Demonstrator, 43 North Clark Street.

WILLIAM LITTLE, M.D.,

Prosector to the Chair of Surgery, 171 Indiana Street.

CHARLES KEIL, Janitor, at the College.

*College Building.*

The College Building, situated on the corner of Dearborn and Indiana Streets, contains two large lecture rooms, each having 625 numbered seats, a spacious Laboratory, Museum, and Dissecting-room—the latter, 38 by 80 feet in size, thoroughly ventilated, lighted by side and skylights, and abundantly supplied with gas and water, containing 50 tables, and private closets for the wardrobes, books, and instruments of each class, is unquestionably unequalled for its purposes. The whole building is warmed by steam, by which a uniform and agreeable tem-

perature is secured in all its parts. Several of the Faculty have their offices in the building, affording every requisite facility for students to secure such information as they may from time to time desire. Experience fully attests the perfect success of the appliances for both heating and ventilation. Not a single case of severe sickness has occurred in the large classes assembled. It is clear that, aside from size, very important hygienic improvements have been secured in the new structure, making this the finest and most commodious Medical College building in the country.

Members of the profession are invited to call and survey the building and its advantages at any time.

*School of Chemistry.*

The spacious Laboratory of the College has been fitted up in the most complete manner for instruction in *Practical Chemistry*. Students are received at any time, and, if desired, can have the privilege of working at the tables, under the immediate direction of the Professor of Chemistry. Special instruction is given in the several departments of Chemistry, as follows:—Rudimentary Chemistry, Qualitative Analysis, Quantitative Analysis, Practical Toxicology, Chemistry of the Urine, and Physiological Chemistry. Instruction in Practical Metallurgy and Assaying, and Chemistry of Arts and Manufactures, will be given to those who desire it.

*Materia Medica.*

Materia Medica is illustrated by a well selected cabinet of medicinal substances, and with colored plates of medicinal plants. Great care will be taken to instruct the class as to the physiological action of remedial agents, while in their therapeutic application, a careful conservatism will be sedulously inculcated.

*Obstetrics.*

This Course is thorough and eminently practical. It is fully illustrated by models imported from the celebrated manufactory of Auzoux, with diagrams, plates, and specimens. Advanced

students have the benefit of witnessing cases of labor, and may thus become familiar with the duties of the Accoucheur in the Lying-in room.

### *Physiology.*

PROF. FREER is again spending the Summer in Europe, in pursuit of scientific investigations, and will return to give his course in the College, which, by vivisections, and otherwise, will demonstrate his branch in such a manner as to include all its most recent discoveries.

### *Ophthalmology.*

In addition to the Didactic Course in the College, Clinical Instruction will be given twice a week, in the Chicago Charitable Eye and Ear Infirmary. From the large number of patients constantly under treatment, students will have a rare opportunity to study diseases of the eye, and to witness many operations in ophthalmic surgery.

### *Anatomical*

*Matériel* is abundant, and furnished at reasonable rates.

### *Clinics.*

The Course of Instruction adopted by this Institution contemplates, especially, excellence of elementary teaching. To be thorough and progressive are the objects attained by our Didactic and Clinical discipline.

The Clinical advantages of the College are ample and varied. The systematic Course in the lecture room is practically illustrated at the bedside. *Daily Clinics* will be given in the Marine Hospital, by PROF. GUNN, and the Surgeon in Charge. *Four Clinics* will be given each week at the County Hospital, by PROFS. POWELL AND ROSS; the time being so arranged as not to interfere with the regular lectures in the College.

The *College Dispensary* is constantly increasing in efficiency. Several thousand patients visit it annually for treatment, presenting a most interesting and varied class of cases for study.

Saturday of each week throughout the year is devoted to Surgical Operations and Clinical Instruction in the College; at

which time, all persons, either from the city or country, are attended gratuitously. The advantages to be derived from these Clinics can not be overestimated; affording an opportunity of witnessing a great variety of surgical operations, and numerous medical cases, and the treatment proper for each.

### *Graduation.*

The following are the requirements for the Degree of Doctor of Medicine, viz.:—

1st. The candidate must be 21 years of age, and give satisfactory evidence of possessing a good moral character.

2nd. He must have pursued the study of medicine three years, and attended at least two courses of Lectures, one of which must have been in this Institution.

3d. He must have attended Clinical Instruction during, at least, one College term.

4th. He must have pursued the study of Practical Anatomy, under the direction of the Demonstrator, and to the extent required by the rules of the College.

5th. He must notify the Secretary of the Faculty of his intention to become a candidate, and deposit the amount of the Graduation Fee with the Treasurer, on or before the 20th day of January. In case the candidate fails to graduate, the fee will be returned to him.

6th. Every candidate must undergo a full and satisfactory examination on all branches taught in the College.

7th. Graduates of other respectable schools of medicine will be entitled to an *ad eundem* degree, by passing a satisfactory examination, paying the graduation fee, and giving evidence of a good moral and professional character.

### *Books of Reference.*

Students will find a good assortment of medical books and surgical instruments in this city. The following books of reference, among others, are recommended:—

*Chemistry.*—Fownes, Brande and Taylor, Wells.

*Anatomy.*—Gray, Wilson.

*Physiology*.—Todd and Bowman, Flint, Dalton, Draper.

*Materia Medica*.—Waring, Stillé, Wood, U. S. Dispensatory, H. C. Wood's Abridgement of Pereira.

*Medical Jurisprudence*.—Taylor, Beck, Wharton, and Stillé.

*Obstetrics*.—Hodge, Cazeau, Bedford, Churchill.

*Diseases of Women*.—Scanzoni, West, Thomas.

*Diseases of Children*.—Condie, West, Tanner, Bouchut, Smith.

*Surgery and Practical Pathology*.—Erichsen, Chelius, Druitt, Gross, Paget.

*Practice of Medicine*.—Flint, Aitken, Wood, Watson.

*Clinical Medicine and Disease of Chest*.—Bennett's Clinical Medicine; Flint, or Walsh, on the Heart; Walsh, or Fuller, on the Lungs.

*Surgical Anatomy*.—MacLise.

*Microscopic Anatomy*.—Todd and Bowman, Queckett.

### *The Library Room,*

To which all members of the Class have free access, is pleasantly lighted and heated, and to its tables all the medical periodicals of this country are regularly contributed. This enables students at leisure intervals to familiarize themselves with the current medical literature of the times, and cultivates in them a habit of general professional reading, and begets a disposition to subscribe for such journals when they become practitioners.

### *Fees.*

Lecture Fees for the Course,-----	\$50 00
Matriculation Fee,-----	5 00
Dissecting Ticket,-----	5 00
Hospital Tickets,-----	5 00
Graduation Fee,-----	25 00

The Extra Fee for the newly organized Chair of Ophthalmology is \$5.00, and is appropriated to making additions to the Museum and Library.

From Alumni of this and other respectable Medical Colleges, the Matriculation Fee only will be required.

### *Board and Rooms.*

Good board, with rooms and all the usual accommodations, can be obtained at as reasonable rates in this as in any other city. By associating in clubs, students may supply themselves with good accommodations at a material reduction from ordinary rates.

### *Spring and Summer Instruction.*

Under the direction of the Faculty, a Spring and Summer Course, beginning on the first Wednesday of March, and ending on the 30th of June, is annually conducted, consisting of lectures, recitations, and clinical observations at the Hospitals and College Dispensary. It is not intended to be in lieu of a regular course, but is established to afford greater facilities to students desiring to remain in the city during the summer, for the benefit of clinical advantages.

The outline of this course will be published before the close of the next session.

There are also abundant facilities, connected with the College, for the pursuit of special studies, by PRIVATE COURSES, under competent instructors, and for Private Examinations on the subjects treated in the public lectures, of which the student may avail himself, as his inclination and advantage may dictate.

### *Directions to Students.*

Students will sign the Matriculation List, and obtain their tickets of the Treasurer, PROF. INGALLS, at his office, 190 Clark Street; and to give opportunity for this, the office will be open from 8 o'clock A.M. to 5 o'clock P.M., on and after Monday, September 27th. Students may select their seats in the lecture rooms when they take their tickets. The Janitor may be seen at his residence in the College building, and will aid in obtaining boarding places, rooms, etc. For any special information, students may call on any member of the Faculty. For circular, address the Secretary, Prof. DELASKIE MILLER, 518 Wabash Avenue.

# CATALOGUE OF STUDENTS.

1868 and 1869.

NAME.	PRECEPTOR.	STATE.
Albright, Lebbens M.	Drs. Litch & Coleman.	Indiana.
